

Collin College RN-to-BSN Program

END OF PROGRAM STUDENT LEARNING OUTCOMES

- Use clinical reasoning and knowledge based on the nursing program of study, evidence-based practice outcomes, and research studies as the bases for decision-making and comprehensive, safe patient and population care.
- Demonstrate inquiry and analysis in applying patient care technologies and information systems to support safe nursing practice and population risk reduction.
- Lead safety and quality improvement activities as part of the interdisciplinary team and as an advocate and manager of nursing care.
- Promote population risk reduction with diverse communities in collaboration with members of the interdisciplinary health care team.
- Participates in monitoring institutional, professional, and public policy to maintain adherence to standards of practice within legal, ethical, and regulatory frameworks of the professional nurse.
- Demonstrates leadership skills related to financial, human resource, clinical, and professional issues in providing and evaluating care.
- Demonstrate leadership and advocacy that reflects the values and ethics of the nursing profession.
